

Policy T2 of the emerging Local Plan sets out the overall approach to the provision of cycling and walking infrastructure within the district. The Cycling and Walking PAN supports Policy T2 and sets out how future development at strategic sites should support and develop the existing network. The approach taken in identifying routes follows that advocated by the National Planning Policy Framework and has also been subject to consultation with relevant stakeholders. . If you have comments on this PAN please email planningpolicy@lancaster.gov.uk by **29 August 2019**.
